

Schwurbel

Moonn Electronics
Use me to build a version of the PMW with LFO

Hi there!
Thank you for building me!

I am schwurbel, your personal signal to garbage translater.
You can build me as a crazy fuzz with adjustable pulsewidth or as a crazy fuzz with adjustable
pulsewith and weird modulation to the pulsewidth.
Your bandmates will love me.

If you have any questions or anything else to say, just write an email to
moonnelectronics@gmail.com

Have a nice day!
